

1994-97 Dodge Ram Installation Instructions

Step 1: Push out the retaining clips that hold the wiring harness to the dash carrier.

NOTE: DO NOT BREAK OFF!

Step 2: Draw a “square” in middle of dash carrier, approximately .25” from retaining clip holes.

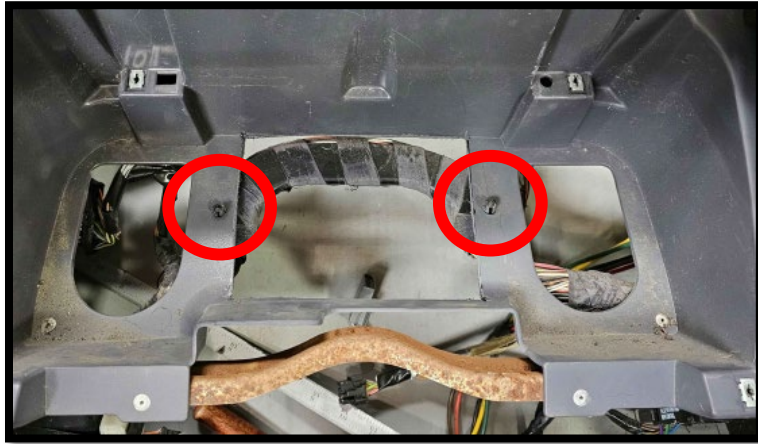

Step 3: Cut this section out of your dash carrier with a Dremel or reciprocating saw.

NOTE: Before you cut, move wiring harness to the side to prevent damage to harness.

1994-97 Dodge Ram Installation Instructions

Step 4: Reattach wiring harness retaining clips by pushing them back up through dash carrier.

Step 5: Insert the mounting screws into the dash panel mounting holes using a screwdriver.
